

Email on mobile devices

Go to «Settings», “Passwords and accounts”, choose “Add Account” and “Exchange”

Enter your email address and add a description, you will be asked for your password on the next page.

If the mail is not set up automatically, select "Manual Setup", and add **epost.comita.no** as the server and enter your email address in the username field and press “Next”. You can then choose what you want to sync. Press "Save" to finish the setup.
